

ICSE JOURNEY

The world is facing an unprecedented planetary crisis of climate change, nature and biodiversity loss and pollution. Humans have also transgressed 6 of 9 planetary boundaries that regulate the stability and resilience of the Earth system. The Science has already sounded the alarm of the critical state of our climate and earth systems and has called for quick transition to a green, circular economy, to save the planet. Education specifically sustainability education has to play an important role as a major catalyst and a transformative agent to find solutions to these planetary crises and to make the world a better place to live sustainably.

Launched in 2019, the International Conference on Sustainability Education (ICSE) serves as a platform to delve into the intricacies of sustainability education as a genuine agent of change. The 2nd and 3rd iterations of ICSE, conducted virtually, focused on contemporary issues like policies, ecosystem restoration, and climate literacy. The 4th ICSE in 2022 aimed to build connections and partnerships among educators dedicated to sustainability, fostering a robust alliance. The 5th ICSE in 2023 centered on the theme "Educating for Climate Action and Sustainability," aiming to accelerate the transition by cultivating the knowledge, skills, and attitudes required to drive meaningful transformation towards climate action and sustainability through education.

PAST PARTNERS

6th International Conference on Sustainability Education

Theme: Greening Education for a Sustainable Future

Venue: India Habitat Centre, New Delhi, India

Date: 19-20 September 2024

ICSE 2024

The **6th International Conference on Sustainability Education (ICSE)** is being organized on **19 & 20th September 2024** at **India Habitat Centre, New Delhi**, on the theme, **“Greening Education for a Sustainable Future”**. The theme underscores the imperative to reorient educational practices and systems towards environmental consciousness and long-term sustainability. It calls for integrating ecological awareness and fostering a generation of environmentally literate individuals equipped to address global challenges and contribute to the creation of a resilient and sustainable future for our planet.

ICSE 2024 will feature special plenaries, thematic panels, master class and workshops, sustainability thought leaders and educators conclaves apart from special sessions on ‘Population Sustainability’ and ‘Youth for Earth.’ The specially curated ‘Youth Conclave’ and ‘Youth for Earth’ campaign will be a unique opportunity for young sustainability leaders to showcase their contributions towards environment and sustainability through innovative projects and ideas. The conference will also provide opportunities for young researchers and scholars to present their work through posters and oral presentations.

Call for Partnership/ Sponsorship

Partnerships and sponsorships are invited from interested institutions, organizations, agencies, corporate and government entities involved in sustainability activities and projects to present their programmes and sponsor/support ICSE.

Call for Panel, Sessions & Workshop

Panel, Session and Workshops on topic relevant to ICSE theme are invited.
