for interested delegates of ICSE 2022

# SUNDER NURSERY, NEW DELHI

Sunder Nursery is a go-to place for families, friends, botany enthusiasts and bird watchers. The beautifully manicured garden showcases a rich collection of tropical flora and fauna. Home to over 300 species of trees, Sunder Nursery is Delhi's first arboretum with some rare trees, such as a Pink Cedar, the only one in Delhi. Additionally, the garden has 20,000 saplings, 4,200 trees and 20 acres of nursery beds. As a result, 40 butterfly species and 80 bird species have made this their new home.

## THINGS TO BE REMEMBERED

- Carry your ID proof, hand sanitizer, mask, bag and comfortable footwear for walking.
- Do not litter. Dustbins will be provided for wrappers, plastic covers, paper and other waste.
